

Advice for Installation

What's included in our quotation

Our quotations are based on 2 experienced fitters for the day.

All fixings are included in our price, this includes concrete bolts, screws, glue etc.

Timing

The site fitters work long hours and will typically work until 6pm, please keep in mind travelling time especially if your job is quite a distance from NW9, we may need to request additional days if we run over due to travelling. They come to the factory for 7am.

ACCESS DENIED
STAIR INSTALLATION
IN PROGRESS

Health & Safety

Interruptions are a health and safety issue, we base our quotation on an estimation and with no interruptions – furthermore if they must stop to let people pass this will cause delays.

We therefore insist the area/s where the fitters are working be kept clear always, if not there may be additional costs if we cannot get finished in the estimated time given.

You may be asked to provide labour to assist with lifting the stair if oversized.
